

Hello!! Thank you for visiting my page. I have been teaching since 2011, in the area of Special Education, Emotional Behavioral Disorders. I taught in the St. Cloud area schools for three and a half years at the elementary as well as secondary levels. I started at The Beacon Program in 2014. I am truly passionate about working with students and seeing progress! I'm teaching in the elementary classroom, grades two through six. I hold a Bachelor of Arts in Elective Studies (focus on Special Education Licensure) and a Master of Arts in Education- Differentiated Instruction.

When I am not teaching I enjoy reading, watching movies, spending time with family and friends, and completing crafting projects.
